PROFILE

Passionate UX designer and front-end developer with a proven track record of creating intuitive and visually appealing digital experiences. Adept at translating complex concepts into user-friendly interfaces, I specialize in blending design aesthetics with seamless functionality. With a keen eye for detail and a commitment to user-centric design principles, I thrive in collaborative environments. My skills in HTML, CSS, and JavaScript complement my deep understanding of user behavior, ensuring the delivery of engaging and accessible web solutions.
